

Kitchen Accessories

Every matching part we make for your kitchen - what each one is, where it goes, and the sizes we supply.

How our accessories work

Finished to match your doors

You do not choose an accessory colour. Every part is made in the same colour and finish as the doors on your order, so it matches exactly.

Added to the same basket - invoiced separately

Accessories go into the same basket as your doors, but they are supplied and invoiced separately from them.

Prices are live on the website

Accessory prices come straight from our pricing service and can change, so this guide does not print them. You will see the current price the moment you pick a size in the configurator.

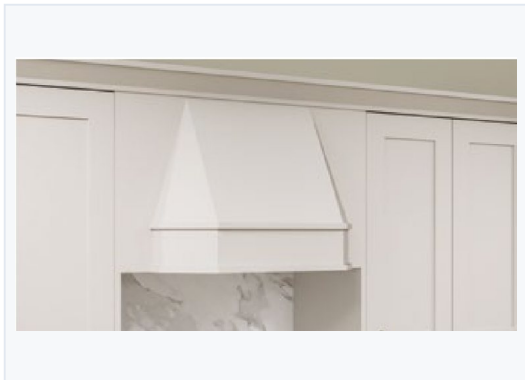

Cut to fit on site

Lengths such as plinth, cornice, rail and edging are supplied long and cut to fit. Allow your own tolerance when you measure.

Not sure what you need?

Send us your sizes or a photo of your kitchen and we will tell you what to order. info@kitchen-pros.uk or 0114 463 0090.

This guide covers the three made-to-measure ranges that carry a full accessory list - Bella, Zurfiz and Valore. Not every part is made for every range; each entry says which ranges it applies to.
